

Global Digital Cops (GDC) Software Engineering Fellowship Programme

GDC Software Engineering Fellowship is a national programme to select 40 of India's brightest software engineering students for an industry-led training to become full-stack developers and get a six month remote internship for open-source contributions to create digital public goods.

Admission Open Now 

Apply Now at:
<https://fullstack.gdc.network>

Who is this for?

- Age 18+ students who enjoy programming. You should have written at least some amount of code yourselves before, either on personal projects or college projects.

Do I need to pay ?

- 40 students who are selected for the programme will be offered 100% Scholarship.

What do I gain ?

- Build production web apps with Python, Django and Typescript.
- Enjoy working in an industry setting and learn from professional programmers.
- A community of fellow students, and a discussion board to ask questions.
- Weekly sessions with mentors and fellow students.
- AMA (Ask-Me-Anything) sessions with industry experts.
- Six months internship with CoronaSafe/eGov Foundation.
- Joint National Fellowship Certificate issued by All India Council for Technical Education and Industry.

Promoting Gender Balance

- 10 scholarships are reserved for women to promote gender balance in this program.
